You must check the destination version radio you have and use the correct update firmware. The destination is marked on the box serial number label. If the box is not available, the country you purchased the radio in may indicate the destination. If the FCC part 15 rules statement is on the radio above the Serial/ID label, it is the USA version. FTM-400XDR/XDE DSP PCTOOLe Ver. 4.31 (02/13/19)

- Improved and optimized functions.
