FT-70DR/FT-70DE Firmware Update Information

Refer to the Firmware Update Instruction Manual in each ZIP file.

The latest versions are listed below with the release dates.
▪ MAIN Firmware Version **1.11** (11/08/17)

Currently we have two different destination versions of the FT-70DR/FT-70DE: USA (DST: USA/ AUS), EXP (DST: EU/EXP/CHN).

*The firmware version for Japan is different from USA, AUS, EXP version. Please check the latest firmware of the Japanese version on the Japan WEB site: http://www.yaesu.com/jp/amateur_index/index.html.

Please open the Update Instruction Manual and review the information before starting the update firmware.
To download the zip file "**FT-70D_ver111(USA)**" for USA or the zip file "**FT-70D_ver111(EXP)**" for EXP" destination versions from YAESU website files section:
http://yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=111&encProdID=7CDB93B02164B1FB036530FBD7D37F1A&DivisionID=65&isArchived=0.

CAUTION:
Please be sure to confirm the model and the version of your transceiver before starting the update. Writing incorrect firmware to the transceiver may cause abnormal operation or failure.

FT-70DR/FT-70DE MAIN Ver. 1.11

- The WIRES-X connection function is added.
- Added the DG-ID setting for the WIRES-X node station connection to the set mode menu (Set Mode: 63: W-DGID).
- Corrected a rare case incomplete charge, and error indication, when charging a completely discharged battery.

If you already have Main Ver. V1.11 firmware versions, it is not necessary to update the FT-70DR/FT-70DE again.

We hope this new firmware will increase your enjoyment of the FT-70DR/FT-70DE. Thank you for choosing Yaesu radios. If you have any problems or questions please contact Yaesu Amateur Tech Support amateurtech@yaesu.com.
